# All Tsukineko inks are acid free!

## PIGMENT INK

Pigment ink turns stamping into an art. Tsukineko's Ultimate Pigment Ink is a "traditional" pigment ink that is thick like paint and gives stampers and scrapbookers unlimited possibilities. It is slow-drying and water-based, embossible for unparalleled color richness and opacity. Brilliance, VersaFine®, and VersaMagic® differ from "traditional" pigment inks in their qualities and characteristics. These pigment inks broaden the stamping horizon and each has its own unique elements. Pigment ink is naturally pH Balanced and Archival, making it a perfect choice for scrapbook projects!

## BRILLIANCE

It's been called the "miracle ink" and has been a best-seller since it hit the market. Brilliance is a special pigment ink that dries on surfaces where traditional pigment inks won't.

It dries quickly but still slow enough to emboss and the beautiful shimmering colors even dry on **vellum!** Available in 34 solid pads, 6 three-color pads and 28 Dew Drop petite ink pads.

Mica particles in the ink make impressions of glitter! Available in 12 solid pads, 2 four-color pads, and 12 one-inch cubes.

The reflective interference ink pad. A great addition to any artist's palette. Opalite® gives you true iridescence and a metallic finish. It is ideal for direct-to-paper techniques on dark or glossy paper. Available in 9 solid pads.

The stenciler's ultimate palette! Offered in 5 twelve-color pads.

A revolutionary oil-based pigment ink, VersaFine® dries instantly with the opacity of pigment ink on uncoated papers. Great for finely-detailed stamps and perfect for all of your watercolor outlines! Combined with Walnut Ink, it will give you a beautiful antique look. Ideal for scrapbook and art projects! Available in 12 colors.

Our core pigment pad is available in 76 solid pads, 76 one-inch cubes, 10 three-color pads and 8 five-color pads.

The first pigment chalk ink with a beautiful matte finish, especially on dark paper. Dries quickly and without a chalky smear. VersaMagic® is available in 41 colors and 36 Dew Drop petite pads, and can be used on paper, wood, leather, and more.

## WATER MARK / RESIST INK

The versatile stamp pad that every stamper must have! VersaMark® creates watermark images, tone on tone designs, is perfect for chalking and as resist ink on glossy papers. It's also the perfect embossing ink, with an extended "open time." Available in a large pad, one-inch cube, refill and dual-tipped pen.

## CRAFT INK

Craft ink is pigment ink with a "kick." It's permanent (needs to be heat set on non-paper items) and can be used on a variety of surfaces.

This craft ink has the consistency of dye ink making it perfect for fabric painting. The blendability, washability and versatility have made this quick-drying craft ink a favorite among fabric artists and quilters. Colors become part of the fabric and leave your project with a soft touch! Available in 45 colors including metallics.

VersaCraft® / Fabrica Craft® Ink Pads are available in 32 solid pads, 2 twelve-color pads, 32 one-inch cubes and 31 dual-tipped markers (White not available). When stamping on fabric, items should be pre-washed and heat-setting is required. VersaCraft® is also perfect for scrapbooking and other paper projects because of its opacity and permanence. Use our uninked pads and inkers to create your own color combinations.

It's the perfect adhesive for ultra-fine glitter, chalk, powdered pigments and leafing foils. Great for stamping, stenciling, daubing or direct-to-paper applications on coated surfaces. Test first on matte paper.

StazOn® dries on non-porous and semi-porous surfaces, where other inks will not dry. Easy cleanup with StazOn® All-Purpose Cleaner. Perfect for home décor and paper crafting. Available in 25 colors!

Dry pad and inker provide the freshest stamping pad available. Best results achieved on non-porous and coated paper surfaces. Available in 6 colors!

Walnut Ink is the perfect solution for all your "aging," tinting and color-washing needs. It's available in 8 liquid colors or in original crystal form for highlighting paper, wood, leather and other porous surfaces. Walnut Ink and VersaFine® are the perfect duo to achieve the vintage look in no time at all!

## DYE INK

Dye ink is a basic rubber stamping ink and perhaps the easiest to use. It's quick-drying and perfect for water coloring, blending and brayering techniques. Dye ink markers are perfect for coloring/shading rubber stamps in an array of colors.

Memento™ provides fade-resistant, water-based dye ink. Twenty-four wonderfully fresh colors are available in full-size pads, Dew Drops, inkers and dual-tipped markers.

Our basic dye ink pad is available in 36 colors with dual-tipped markers and inkers to match.

The innovative Kaleidacolor® container has made it one of our most popular items! A sliding palette ensures that your colors won't run together during storage. Available in 20 color combinations. Create your own color theme with our uninked pad and choose from 62 vibrant dye ink color reinkers!
